

Call For Participants

Public awareness on the impact of aircraft noise pollution on health

4 min(s) to complete

Sincere gratitude, some brilliant movie recommendations and a trip to Jebel Jais on 17th...

Questionnaire

United Arab Emirates

Emirates Aviation University

Nowadays, the trend is towards using capital-intensive machinery and increasing the number of vehicles and aircrafts: regrettably, this has given birth to a continuous approval of noise as a concomitant product of advancement. This research will assess whether or not people are aware of the adverse impact of aircraft noise pollution on health. Participants in this research will include people who live close to airports.
