Evaluation of the SMART approach to repeat, asymptomatic COVID-19 testing

20 min(s) to complete

£15 Amazon voucher

Interview

Online

Liverpool John Moores University

The aim of the study is to explore views and experiences of symptom-free COVID-19 testing (also referred to as lateral flow tests). We are interested in the views and experiences of people who have attended a community COVID-19 testing site or have gone to work throughout the pandemic.
