Investigating public speaking anxiety in students

20 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

Nottingham Trent University

We are looking to put together a model that predict students' anxiety about giving presentations (formally and informally assessed), and the things that help buffer such anxiety. We are doing this to be able to then put into practice the outcomes of this research. We will work with professionals to help us implement changes in the system to help ensure anxious students get the support they need to feel confident and succeed in their oral assessments throughout their degree.
