

Call For Participants

Cancer prevention adherence and knowledge in healthy UK adults (CPAK-UK)

60 min(s) to complete

Sincere Gratitude. Also, take part in this study with the chance to receive information...

Online Questionnaire

Online

University of Leeds

We invite you to participate in a study titled: "Cancer prevention adherence and knowledge in healthy UK adults (CPAK-UK)". This study aims to assess adherence to and knowledge of cancer prevention recommendations among healthy adults in the UK.

The study involves online questionnaires (40-60 mins total) about diet, activity, and demographics. It may also involve an optional blood test (less than 1 hour) to measure nutrients and blood cells. Reimbursement for travel is available.
