Virtual Reality in Eating Disorders

60 min(s) to complete

20 pounds voucher

Experiment

King's College London, De
Crespigny Park, London SE5 8AF,
UK

King's College London

We invite people with a diagnosis of anorexia nervosa to complete an online survey about food-related experiences, eating disorder symptoms, mood, and anxiety symptoms (30 minutes) and a brief virtual reality experience (15 minutes). The virtual reality experience involves entering a virtual kitchen and looking at, and touching some virtual foods. The virtual reality experience will be followed by an optional, mini-interview (5 minutes) in which you can provide feedback about the study.
