

Call For Participants

AND-PD (Anxiety with or without Depressive Features in Parkinson's disease)

4 hour(s) to complete

£10

Experiment

Wellcome Trust Centre, 12 Queen Square, London WC1N 3AR, UK

University College London

We want to find out what the risk factors and associated clinical features are for anxiety in people with Parkinson's disease. The eventual aim will be to identify targets to help design therapies to improve anxiety in Parkinson's. We also would like to see if patterns of anxiety and depression differ in people with and without Parkinson's. Finally, we would like to see if there are structural or functional brain differences between people who have Parkinson's and those who do...
