

Call For Participants

3 day BED REST study

12 day(s) to complete

Cash

Human physiology experiment

Nottingham, UK

University of Nottingham

Healthy volunteers required as "Pillownauts" (Astronauts in Bed) - helping a manned mission to Mars!

To investigate insulin resistance during BED REST. This is part of a larger study with the European Space Agency.

The study is being conducted at the University of Nottingham. It involves medical screening, 3 days bed rest, 3 experimental sessions and 3 days rehabilitation.

Volunteers must be healthy, male and aged 20-45 years.
