

# Call For Participants

The Open Data Policy and its Effect on IT Systems

10 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

University of Nottingham

Open data is the concept that publicly funded research data should be easily accessible and available to download by other researchers and members of the public. This project aims to understand the effect of the new EU open data policy on existing IT systems and to find out what changes need to be made to existing systems or if we require an entirely new one.
