

Call For Participants

UNC PMDD Study

2 month(s) to complete

Free diagnostic evaluation of menstrual mood changes, and up to \$25 in monetary compensation.

Observational only (no intervention arm). Women diagnosed with MRMD or PMDD may be eligible...

Chapel Hill, NC, USA

University of North Carolina Chapel Hill

If you suffer during the week before menstruation from depression, anxiety, irritability or mood swings, and these symptoms are severe enough to interfere with normal functioning or interpersonal relationships - you are not alone! Up to 30% of reproductive age women suffer from clinically significant premenstrual symptoms (PMS).

This study offers free diagnostic evaluation for menstrually-related mood disorder (MRMD) and premenstrual dysphoric
