Craving for alcohol? The effect of a brief intervention on alcohol use

90 min(s) to complete

You will be paid £20 once you complete all the final questionnaires a week after attending...

Experiment

1-19 Torrington Pl, Fitzrovia,  
London WC1E 7HB, UK

University College London

This study examines strategies for managing craving for alcohol. This will help us discover more about the psychological processes that are involved in craving, which in the long-term, may help in the development of psychological treatments for addictions
